

納豆パズル solution

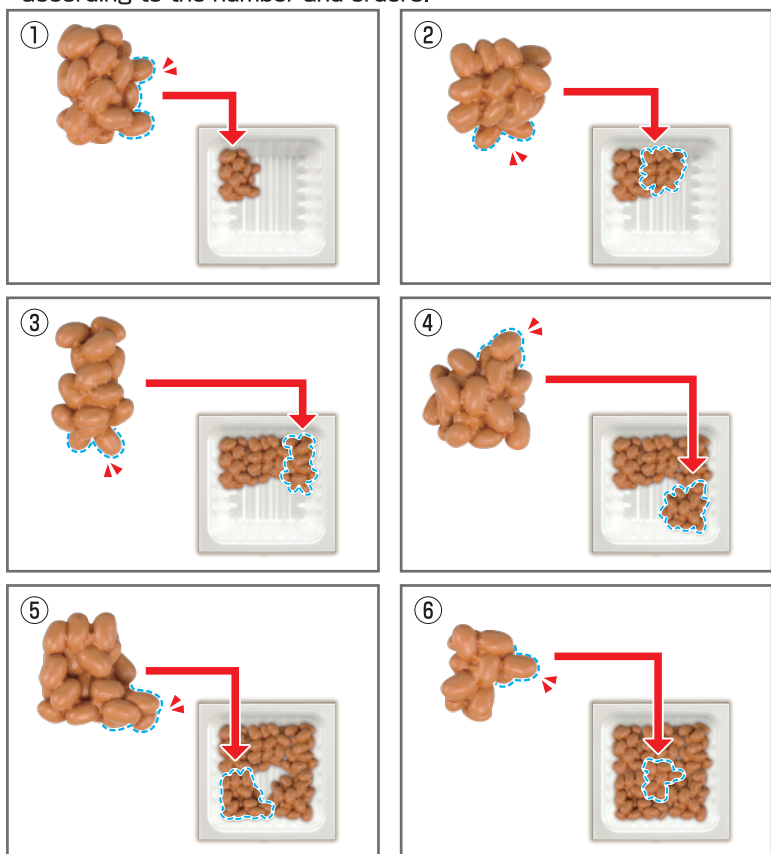

解体パズル Lite

- 1** ●Each natto part has a different shape. Check the shape and number in the figure on the right.

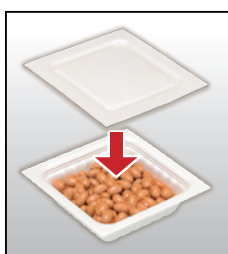

[Shape and number of natto parts]

- 2** ●As shown in the images below, put the natto parts one by one according to the number and orders.

- 3** ●Cover the lid.
※There is no direction to the lid.

When the lid fits perfectly, the first stage is complete.

Complete!!

If the lid doesn't fit...

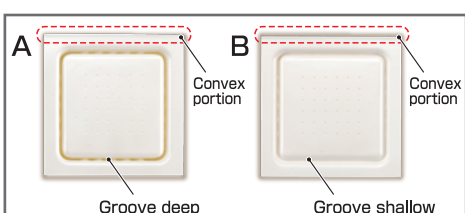

- The place to put natto parts is wrong.
- The natto parts are misaligned.

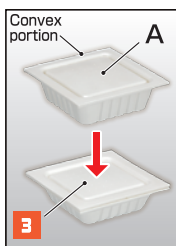

- The orientation of the natto parts is wrong.

Please check above. If you can't complete it, start over from the beginning.

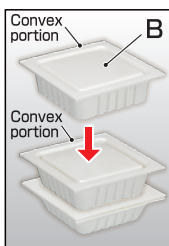

- 4** ●There are two containers that do not contain parts, and the depth of the groove on the top surface is different for each. In addition, there is a convex part on one side of the edge.

- ①Combine A in the direction that fits perfectly.

- ②Combine B in the direction that fits perfectly.

100% completed!!

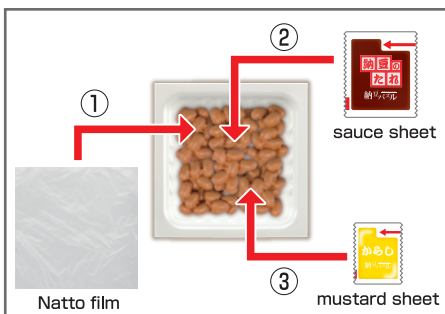

If you stack the container parts in the wrong direction, they will not fit perfectly.
