

にんくパズル 解法 / solution

- 1** Assemble the skin (top) and skin (bottom) without adding garlic parts inside.

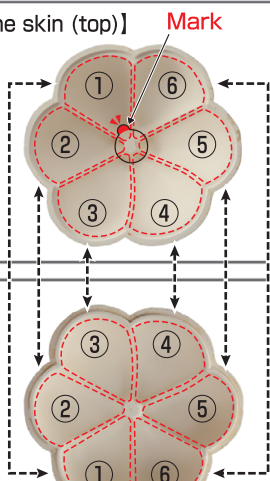

Please check if there is no gap between skin (top) and skin (bottom)

- 2** ① Remove the combined skin and check where the garlic parts will fit.

- ② There is a **mark** in the center of the inside of the skin (top). The area with the **mark** is designated as ①, and the others are designated as ② to ⑥ as shown right.

[Inside the skin (top)]

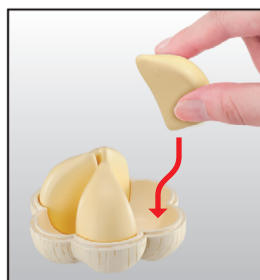

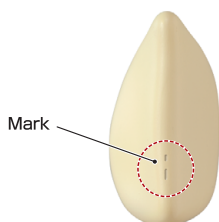

[Inside the skin (bottom)]

- ③ Check each area of the skin (top) and the corresponding areas ① to ⑥ of the skin (bottom).

- 3** ① Each garlic part has a different mark. Check the marks and numbers in the table on the right.

Number	①	②	③	④	⑤	⑥
Mark						

- ② Insert the garlic parts correctly so that the area numbers on the skin (bottom) match.

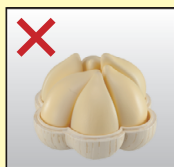

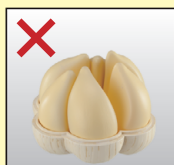

Make sure the garlic parts are in place.

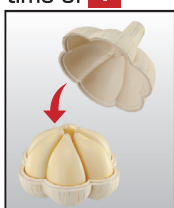

[View from above]

If it is tilted or misaligned as shown on the right, reinsert the garlic parts.

- 4** Cover **3** with the skin (top). It is completed when it fits exactly like the time of **1**

※ If it doesn't fit, the garlic parts aren't in the right place or the skin (top) is in the wrong orientation.

※ If there is a slight gap, shake lightly while pressing the skin. If the garlic parts are inserted correctly, the gap will close.

Complete!!
